

Health. Naturally.

Biotta®

Biotta. Organic pioneer.

Synonymous with tradition, innovation and renowned quality, the Biotta brand offers an assortment of organic fruit and vegetable juices.

The company philosophy, developed by organic pioneer and Biotta founder Dr. Hugo Brandenberger is as valid today as it ever was: "Foster human vitality and health by creating premium-quality products made from organic produce."

Long before "organic" was a concept, Biotta had already adopted its principles and methods for their produce, harvesting fruits and vegetables cultivated in healthy, living soil.

Make the right choice, for your health and well-being.

Dr. Brandenberger

Biotta. Superior quality.

Some Biotta products contain extracts of herbal tea and flowers for greater effectiveness and refined flavour. While Biotta juices are lactose-free, they contain lactic acid, the natural product of a special fermentation process. This pure compound is a natural preservative that protects naturally occurring lactobacillus, known for its beneficial effects. Thanks to this natural process, there is no need for chemical preservatives or sterilization.

Quality. Our pledge.

 Bio Suisse is a trademark reserved for certified organic products. All Biotta juices are 100% organic.

 Biotta products are made with pure fruit and vegetable juices, never with diluted concentrates.

 No artificial additives, flavours, vitamins or colouring.

 Biotta products contain no added sugar.

VEGETABLES

Rich in essential vitamins and minerals

Made with:

RED BEET

CARROT

CELERIAC

High in vitamins E and K, folate, potassium, calcium and manganese. Purifies the body and re-establishes its ideal pH balance.

TOMATO

Contains natural vitamin C and lycopene, which is important for cellular metabolism.

BREUSS

Specially developed for health cures, this optimum blend of vegetable juices contains vital substances the body requires.

Made with:

RED BEET

CARROT

CELERIAC

POTATO

Neutralizes acidity, making it easy to digest and ideal for treating heartburn.

RADISH

Rich in antioxidants, it stimulates digestion and promotes the elimination of toxins.

CARROT

For healthy skin

Rich in natural beta-carotene, which contributes to tissue, epidermis and mucous membrane health. When metabolized, it forms vitamin A, which has benefits for vision.

SAUERKRAUT

Stimulates intestinal peristalsis. Helps resolve chronic constipation.

Sauerkraut is high in vitamin C and produces lactic acid during its natural fermentation process, which helps balance and stimulate intestinal flora.

BEET

Helps lower blood pressure and boost athletic performance, especially endurance.

Beets contain anthocyanins and betacyanins, two substances known for their immune-boosting properties. Beets are rich in potassium, magnesium, iron and manganese.

WILD BILBERRY

Improves night vision

Contain anthocyanins, which have a beneficial effect on vision. Contains tannic acid and myrtillin, which fight pathogens in the digestive tract.

VITA 7

Rich in essential vitamins and minerals

Made with:

RED BEET

CARROT

BANANA

Fully ripe bananas are a fast, highly digestible source of energy as well as a good source of potassium, magnesium, manganese and vitamin B6.

ORANGE

Due to oranges' rich vitamin C (antioxidant) content, European sailors used to plant orange trees along their trade routes to help them ward off scurvy.

PINEAPPLE

Pineapple is prized for its great flavour and its vitamins C and E, manganese, zinc, copper and iodine.

APPLE

Apples not only provide vitamins (including B and C), they also contain fibre (pectin and cellulose), which is important for digestion.

GRAPES

Grapes' high glucose and fructose content makes them a healthy source of vital energy for the body.

SEA BUCKTHORN BERRY

This tart berry is very rich in vitamins C and E, as well as in omega-7 fatty acids.

ELDERBERRY

Rich in antioxidants

Thanks to its main active ingredient, elderberry can regenerate the filtering ability of the cilia in the respiratory tract, making it an effective treatment for colds.
