

# Aromaforce® Ultrasonic Diffuser Instructions

**Thank you for purchasing our product!**

**For safe and proper use of this diffuser, please read this document carefully.**

## General Information and Safety Warnings

- Keep out of reach of children and animals. Do not allow children to play with it.
- Always disconnect from the power supply before removing the top cover or when equipment is not in use.
- Do not submerge the bottom part, the lid and cover into water or wash under a running tap. Do not use any chemicals to clean the diffuser; always use tap water. Only use only a damp cloth to wash and dry cloth or sponge to dry.
- It is recommended to replace the water every 8 hours and to clean the equipment after 5 to 6 uses or weekly.
- Only use room temperature tap water or purified water. Do not use any other liquid.
- Do not overfill the water container.
- Always position your diffuser on a stable surface, where it is unlikely to be damaged and ensure that the power cord is clear of any area where it may be tripped over.
- Do not tip the unit when it is on or contains water. Never move the unit while in operation.
- Do not use if the water container is broken.

## Features:

- 4 timer modes: 1, 3, 6 hours or continuous
- 3 light options: 7 rotating colors, can be set to your favorite color or no lights
- Large capacity: can hold up to 250mL of water
- Diffusion coverage up to 500 sq. ft.
- Easy to operate and clean
- Automatic shut-off when empty
- 1-year guarantee

## 1-year guarantee is not valid if:

- Damage from misuse or uncleanliness
- Improper use of water tank
- Attempted self-repair or disassembly of item
- Use of the item for other than its intended purpose
- Purchase receipt not supplied

## How to use:

1. Ensure that the colored top cover and inner lid are removed.
2. Fill the container with clean tap water, ensuring that you do not fill over the maximum fill line.
3. Add essential oils to the water in the tank – do not exceed 2 to 4 drops per 100mL of water.
4. Place lid and cover on top of the device.
5. Plug the connector end of the power adapter into the input under the base.
6. Plug in the USB power cord with electric connector.
7. Press the mist button (button on the right) once to turn it on. This will run for one hour and then switch off. To increase the time you want the diffuser to run, press the mist button twice for 3 hours and three times for 6 hours. Pressing the mist button for a fourth time will keep it on continuously. Misting strength may take several minutes to reach full potential and can vary due to air temperature, humidity airflow and other external factors.
8. Press the light button (button on the left) once so it slowly moves through all the colors. Pressing the light button a second time will keep the present color lit. To change the color manually, repeatedly press the light button until you find your preferred color or shuts down the light.
9. If the water tank empties during the desired usage time the diffuser will automatically switch off, but the light will still need to be switched off manually.
10. Cleaning and Maintenance: After use and before storing, drain any leftover water. Wipe with a soft damp cloth and dry thoroughly. Do not use abrasive chemicals as this will damage the diffuser.

## Troubleshooting

<b>The unit cannot be powered on.</b>	Ensure the original USB cord and electric connector that was originally supplied with the product is properly connected.
<b>Not functioning after the power is on.</b>	Insufficient water in the tank – add water.
<b>No or irregular mist.</b>	<ol style="list-style-type: none"><li>1. Check the internal area of the unit for any dirt or debris.</li><li>2. Ensure there is sufficient water in the tank or that it is not over the max fill level.</li><li>3. Ensure the upper and inner covers are assembled correctly.</li><li>4. Check that there is no dirt or debris in the air intake vent on the base of the product.</li></ol>

Please note that some environmental factors (such as temperature and humidity) will affect the visibility of the mist.
